E-mail:

Dean: Rakhimjon Odinaev

Mathematics has always been the basis of natural science and, together with mechanics, it is the basis of all engineering sciences and the main means to investigate laws of the Universe.

Lectures on Mechanics and Mathematics have been given at Tajik national university since its opening in 1948.

The Faculty of Mechanics and Mathematics consists of the following departments:

- Department of Informatics (Head of Department F. Komilov),
- Department of Mathematical analysis and theory of functions (Head of Department Kodyrov G.)
- Information and communication technologies (Head of Department Jumaev E.),
- Functional analysis and differential equations (Head of Department Jurakhonov O.)
- Department of Geometry and Methods of Teaching Mathematics (Head of Department Gaforov S.)
- Department of Algebra and number theory (Head of Department Boboyorov Sh.)
- Computational mathematics and mechanics (Head of Department Saduloev R.)
- Modeling of mathematics and information systems (Head of Department Nurov I.)
