**EDUCATIONAL DEVELOPMENT STRATEGY IN THE TAJIK
NATIONAL UNIVERSITY FOR 2021-2025
INTRODUCTION**

Education is a key element of the educational process. **The science of pedagogy proves that education, in terms of goals, objectives and content, is more advanced and comprehensive than education.** Educational activities of the Tajik National University (hereinafter TNU) with the aim of cultivating high moral figures, healthy mind and body, a strong sense of patriotism, national identity and self-awareness, the supremacy of law, hard-working and beauty, thrifty, responsible and active, creative and Educational activities of the TNU are based on the National Concept of Education in the Republic of Tajikistan, the TNU Development Strategy for 2021-2025, the TNU Charter, this Strategy, the regulations of the Department of Education and the approved plans. The TNU takes practical measures in the field of social propaganda, attracting more students to community service and of great social and political importance to the state. Educational activities of the university are based on new political and cultural thinking, the essence of which is to strengthen the state independence of the Republic of Tajikistan, national unity and self-awareness, a sense of patriotism, respect for ancestral history and the implementation of strategic goals. The strategy for the development of education in the TNU determines the current policy and prospects of the university in the field of national education of the general population, especially students. This strategy defines the essence, goals and objectives and prospects for the implementation of education in the TNU. The Founder of Peace and National Unity, the Leader of the Nation, the President of the Republic of Tajikistan EmomaliRahmon, speaking on the draft Law of the Republic of Tajikistan "On parental responsibility for education and upbringing of children" dated 14.12.2010, stressed that "History testifies to the ancient people". We pay special attention to the upbringing of children and always strive to raise their children in the spirit of patriotism and self-knowledge and enlightenment, courage and morality, as well as honour and dignity. This Strategy addresses effective ways and means of implementing education.

1. GENERAL PROVISIONS

1. Strategy for the development of education at the Tajik National University (hereinafter - the strategy) to define goals, priorities and measures, spiritual and physical education of students, the development of patriotism, culture, self-awareness, self-knowledge, humanity, pride and respect for knowledge and values. The homeland is designed to protect the population from modern threats. The Strategy is based on the norms of the Constitution of the Republic of Tajikistan and defines the goals, priorities and measures for the education of TNU students. Development and approval of strategies for the spiritual and physical education of students, the development of their sense of patriotism and love for the motherland, protection of security, strengthening the independence and prosperity of the motherland, protection of the population from modern threats, extremist propaganda, extremism, reconciliation. and religious bigotry lays a solid foundation among students. At the same time, the implementation of this strategy will help to increase self-awareness, devotion to the motherland, national honor and dignity, and create conditions for strengthening the legal, political and cultural background of students. The strategy promotes key national ideas, such as devotion to the motherland, pride in the honourable past, protection of national values and achievements of independence, building a prosperous and civilized civil society among students, and respect for such responsibilities. In the current situation, it is very important to involve specialists in education, especially in the implementation of the Government's constructive goals. Purposeful education guides students on the path of devotion to the Motherland, respect for national values, self-awareness and civic responsibility.

2. Adoption of the strategy is timely and its implementation can remove existing barriers, strengthen the sense of love for the motherland, patriotism, self-awareness and national identity of students and their responsibility for the development of the country, the protection of national interests.

II. THE NEED TO DEVELOP AND ADOPT A STRATEGY

1. The Strategy is established as a mechanism for the implementation of national and universal priorities in order to expand the sense of self-awareness, devotion to the Motherland, national honour and dignity and to create conditions for strengthening the legal, political and cultural background of students.

2. Remaining as an authoritative center for training specialists meeting the requirements of the labour market, the TNU will continue to train specialists with a high level of morality, a strong sense of patriotism and national identity, respect the highest values of human rights and freedoms,

tolerant, responsible, active and creative. TNU considers the training of such specialists as its priority.

3. This strategy identifies prospects for strengthening the direction of student education, taking into account national and universal values. The development of this document is the first experience and involves the sustainable education of all students of the TNU.

4. As of 30.12.2020, more than 25,736 students are studying at the TNU, of which 18,782 are full-time students. Out of the total number of students, 9461 are women and girls, all of whom are in need of education and daily support.

5. Another issue of concern and the need to adopt a strategy is the observation of negative factors among students, such as terrorism, extremism, involvement in extremist parties, movements, crime, prostitution, which disrupts public life and threatens national and state security.

6. Under the influence of various social networks and other media, some weak and ignorant students fall into the trap of interest groups, betray their nation and homeland, and tarnish the country's image and status in the international arena.

7. Based on the analysis of the current situation, the development and adoption of a strategy is the only effective mechanism that connects students with the state and society in the face of modern threats, protects them from existing risks, forms, strengthens and loves the nation. doubles.

8. Enhancing the culture of dress, respect for the values of state independence, protection of the Motherland, strengthening national unity, promoting a healthy lifestyle among students.

III. LEGAL BASIS FOR THE ADOPTION AND IMPLEMENTATION OF THE STRATEGY

1. The legal basis of the strategy is the Constitution of the Republic of Tajikistan, the Laws of the Republic of Tajikistan "On Education", "On Higher and Postgraduate Education", the National Concept of Education in the Republic of Tajikistan, TNU Development Strategy for 20-2025. and other normative legal acts.

IV. GOALS AND PRIORITIES OF THE STRATEGY

The main goal of the strategy is to create favorable conditions, effective opportunities and the formation of practical mechanisms for educating students in the spirit of patriotism, culture, self-awareness, self-knowledge, humanity, pride and respect for national values. Education is a social,

cultural, psychological and pedagogical phenomenon that serves to regulate human life and the progress of society. It is a special purposeful activity of man for the development of the individual and the integration of man into the process of real life and the creation of cultural life. Education of students develops high moral qualities, national identity, humanity, freedom, civic position, initiative and so on. With these qualities, a student can act in the national interest, be critical of the negative aspects of society, love his country and protect its interests, and contribute to the development of society as a thinker and guardian of national civilization. The ultimate goal of education is the formation of a perfect man, the owner of the homeland, national honor and dignity, the embodiment of the intellectual, spiritual, moral, cultural and other human values. At the TNU, all students, regardless of nationality, race, creed, gender, language, religious beliefs, political affiliation and social status, are educated equally. The direction of education in the TNU has a universal character, uniting national education, ideological education, national education, education of national self-knowledge and self-awareness, patriotic education, moral and spiritual education, legal education, humanistic education, beauty education, labour education, economic, environmental education, political education, physical education, training of critical thinking, training of tolerance, education of responsibility, education of healthy life. The direction of education of the TNU is included in the fourth stage of education, during which students gain more knowledge and skills, and have ample opportunities to master national and universal values.

1. The priorities of the strategy, taking into account the social situation and the real needs of students in modern society, are identified as follows:

- instruction in the field of patriotic education, culture, self-awareness, self-knowledge, humanity, pride and respect for national values of students;
- cultural, spiritual, legal and political education of students;
- physical and sports education of students;
- informational, propaganda, artistic and public bases in the field of education of patriotism, culture, self-awareness, self-knowledge, humanity, pride and respect for national values of students;
- cognitive, moral, cultural and aesthetic education of students.

The goals and objectives of the Strategy will be implemented through the following tools:

- involvement of students in radio and television programs on patriotism, culture, self-awareness, self-knowledge, humanity, pride and respect for national values;
- involvement of students in watching educational films and theatrical programs;

- conducting open educational classes at the faculty level;
 - arranging meetings and conversations with scientists and veterans of various professions;
 - the organization of educational clubs at the faculty level;
 - carrying out educational activities in dormitories, the establishment of cooperative relations between students, the development of their self-government through public organizations and student associations;
 - expansion of cooperation between parents and organization of parents' days in higher education institutions;
 - conducting joint raids on dormitories;
 - creation of scientific, comprehensive, sequential and continuous aspects of activities in the field of education of students;
 - ensuring full observance of the rights and freedoms of students;
 - establishment of interdepartmental centers for the development of non-educational activities of students;
 - establishment of a network of social and psychological support services for students.
 - strengthening the national education of students and raising their national thinking;
 - development of a system of educational work through which the cooperation of parents with the university is strengthened;
 - organization of regular meetings and conversations of poets and politicians with students;
 - strengthen educational topics and increase the responsibility of curators of academic groups;
 - to analyze and consider the topics of term papers and issues of national education, such as national thinking, self-knowledge, national unity and pride.
- The TNU also carries out the following activities:
- * Develops an action plan to implement the requirements of this Strategy and ensures its implementation:
 - * Provides information system in the field of education of students;
 - * Strengthens ties with government and public organizations in the field of education;
 - * Familiarizes students with the rules of communication, including etiquette, good manners, health, environment, etc .;
 - * Activation of the website of the department of education and the department of education of the heads of faculties;
 - * Takes effective measures to eliminate violence among students through various elements of education:
 - * Creates conditions for training specialists with the best qualities;

* Create conditions for the education of dormitory residents and take measures for spiritual, self-awareness, national self-awareness, humanism, labor, beauty, etc .;

* Improves the culture of using the World Wide Web, including social networks, among students;

* To strengthen the political awareness of students and their contribution to important national and international events, including: dialogue of civilizations, decade of water for life, national and state holidays, exhibitions, culture and literature week, meetings, games and competitions;

* Strengthens the activities of the Department of Youth Affairs in the field of sporting events, including the organization of mini-football teams, national wrestling, national games, chess, checkers, volleyball, etc .;

* Strengthens the work of the Council for Work with Women and Girls in strengthening the education of female students, the widespread use of national costumes, the promotion of the culture of dress, etc.

V. COORDINATION AND EVALUATION OF THE STRATEGY IMPLEMENTATION PROCESS

1. The educational part of the TNU organizes, coordinates, evaluates and monitors the implementation of the strategy, in accordance with the established procedure submits proposals to the Board of the TNU, taking into account the current situation.

VI. FINAL RESULTS OF THE STRATEGY

The results of the strategy will be evaluated on the basis of indicators that determine the quality of public services. Implementation of the strategy measures will allow:

- Fostering patriotism, culture, self-awareness, self-knowledge, humanity, pride and respect for national values of students;
- Favorable conditions are created for the formation of the cultural, spiritual, political and legal education of students;
