№ 0015-05-1/146

To the Heads of HEIs –
members of SCO network
University

Dear Colleagues!

The Peoples' Friendship University of Russia named after Patrice Lumumba (RUDN University) presents its compliments, and informs that in the period of **November 14-21, 2023** the RUDN University will host the Autumn School of the SCO network University "*Innovative Tools for Sustainable Development Projects*".

The program of the Autumn School is aimed at developing a set of competencies for implementing projects over the Sustainable Development Goals (SDG). The key advantage of the program is its comprehensive interdisciplinary approach. Students will have the opportunity to develop their projects in the following areas:

- Comprehensive waste management;
- Climate-neutral industrial development;
- Greenhouse gas emissions management;
- Innovative sustainable projects.

The main goal of the Autumn School is to engage active students from the member – HEIs of the SCO network University in international project activities aimed at practical solutions of SDG.

The event will take place in a hybrid format. The RUDN University kindly invites students from your university (master's degree, 3rd-4th year undergraduates, **preferably with English knowledge**) to attend the Autumn School in remote format.

The students who wish to participate in the Autumn School remotely are asked to register via the link: <https://anketolog.ru/s/763502/WNKWL6BA> **no later than November 7, 2023**.

For organizational questions, please contact Ms Maria Kurka, Director of the Department of International Cooperation in Science and Education, email: cooperation@rudn.ru.

The Peoples' Friendship University of Russia named after Patrice Lumumba takes this opportunity to renew the assurances of its high consideration and hopes for continuing fruitful partnership relations.

Sincerely,

Vice-Rector for International Affairs

Larisa I. Efremova
